PROFESSIONAL SUMMARY

Third-year Bachelor of Computer Applications (BCA) student with an academic performance of 89% and hands-on experience in frontend web development. Skilled in HTML5, CSS3, JavaScript (ES6+), responsive web design, DOM manipulation, and basic Python and SQL. Experienced in building real-world websites, including a live rental car website used for a personal business. Completed web development, JavaScript, data analytics, SQL, and Excel/Power BI certifications. Seeking an international Frontend Developer, Web Developer, or Software Development Internship to contribute practical skills while gaining experience in a professional technology environment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, Flexbox, CSS Grid, DOM Manipulation

Programming: JavaScript, Python, C, C++

Data & Databases: SQL, Data Analytics, Excel, Power BI

Tools: Git, GitHub, VS Code, Browser Developer Tools

Currently Developing: React, REST APIs, Full-Stack Web Development

EXPERIENCE

Web Developer

Thirumangalam

Notasco Technology

- Developed and styled web pages using HTML, CSS, and JavaScript for real client and project requirements.
- Contributed to frontend features and UI components as part of a development team.
- Applied responsive design principles to create user-friendly web interfaces.
- Gained experience with practical development workflows and project-based collaboration.

Web Developer

Theni

Alpha Fly

- Built and styled responsive web pages using HTML, CSS, and JavaScript.
- Collaborated with the development team to implement frontend UI components.
- Gained practical exposure to real-world web development workflows and version control practices.

SELECTED PROJECTS

Rental Car Website — Live Business Project

- Designed and developed a fully responsive website for a personal car rental business.
- Built car listing, pricing, booking/contact, and business information sections.
- Created a mobile-friendly interface using HTML and CSS.
- The website is live and actively used to support a real business.

Personal Portfolio Website

- Developed a responsive portfolio website using HTML, CSS, and JavaScript.
- Implemented smooth scrolling, project cards, responsive layouts, and a contact section.
- Optimized the interface for mobile, tablet, and desktop users.

Fitness Tracker

- Built a browser-based fitness tracker using JavaScript.
- Implemented DOM manipulation and localStorage for persistent data storage.
- Designed the interface using CSS Flexbox.

Expense Tracker

- Developed an interactive expense tracker using JavaScript ES6+.
- Implemented transaction categorization, deletion, and real-time balance updates.
- Displayed live income, expense, and balance summaries.

Food Landing Page

- Created a responsive restaurant/food business landing page using HTML and CSS.
- Designed structured sections including hero content, menu highlights, and contact information.

SeedHawk — Eco-Seed Reforestation Through Drones (Ongoing Hackathon Project)

- Currently developing SeedHawk, a hackathon project focused on drone-based reforestation using eco-friendly seed pods.
- Contributing to the frontend interface for visualizing drone flight paths and seed-drop planning.
- Collaborating with a multidisciplinary team to design a sustainability-focused, tech-driven solution for large-scale reforestation.

EDUCATION

Bachelor of Computer Applications (BCA)

Theni, Tamil Nadu

Nadar Saraswathi College of Arts and Science

Currently in 3rd Year | Academic Performance: 89%

Relevant Coursework: Web Technologies, Programming in C/C++, Python, Database Management, Introduction to AI/ML

CERTIFICATIONS

- Responsive Web Design — freeCodeCamp
- JavaScript Algorithms and Data Structures — freeCodeCamp
- HTML Fundamentals — Programming Hub
- Python Programming — Programming Hub
- C and C++ Programming — Bharathidasan University
- Web Design SkillUp Training Program — Nadar Saraswathi College of Arts and Science
- Data Analytics Proficiency — Beep Learning
- SQL for Analysts — Beep Learning
- Excel & Power BI — Beep Learning

LEADERSHIP & ACTIVITIES

Secretary — Kernel Krash Club

- Serve as Secretary, coordinating club communications, meeting records, and event scheduling.
- Organize and promote technical events, coding challenges, and community-based learning activities.
- Collaborate with peers and faculty advisors to plan club initiatives and drive member participation.

ADDITIONAL INFORMATION

- Open to international internship opportunities.
- Available for full-time internship opportunities subject to academic schedule and visa requirements.
- Interested in Frontend Development, Web Development, Software Engineering, and Full-Stack Development.
